

# Project Development Phase

## Sprint-1

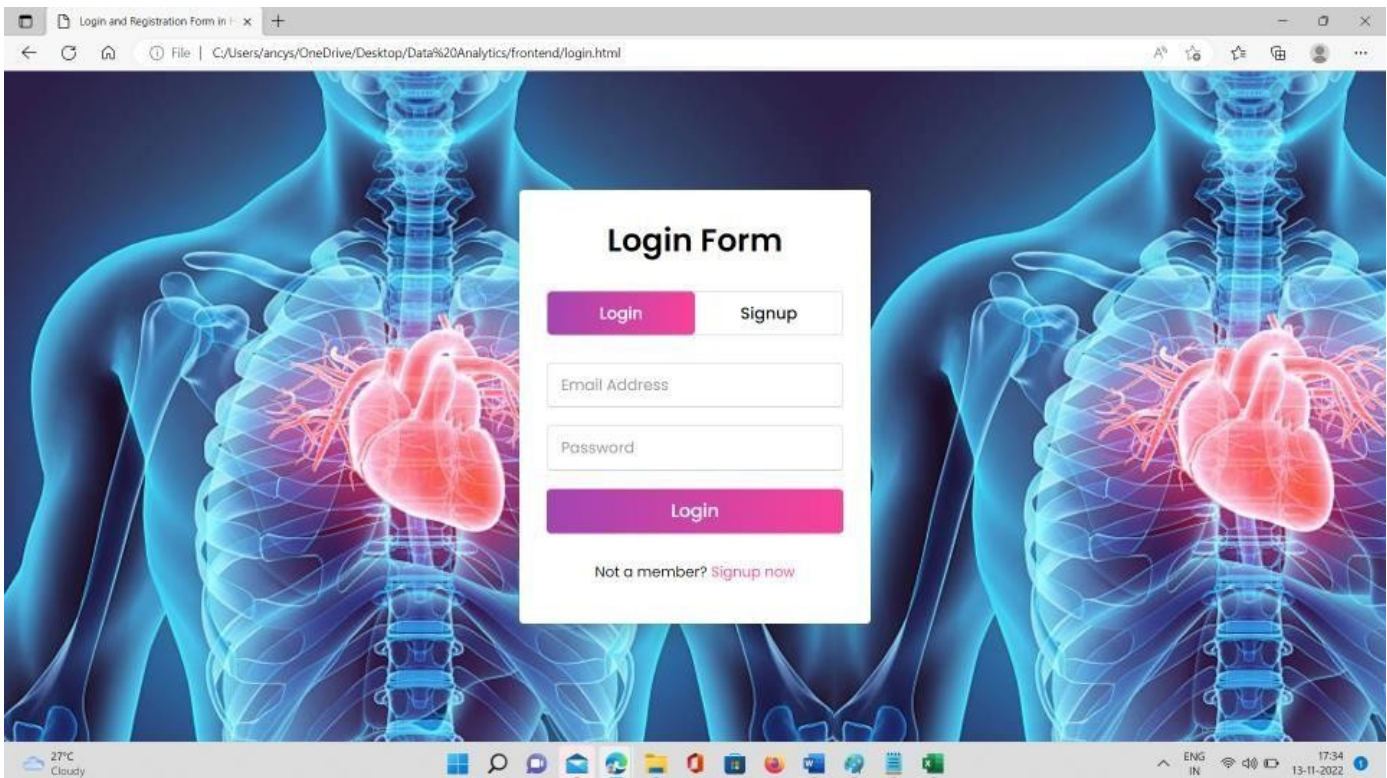

### Test case

Date	20 October 2022
Team ID	PNT2022TMID27777
Project Name	Visualizing and Predicting Heart Diseases with an Interactive Dash Board

## Login and registration page of our website:

A **user registration system** requires the creation of a user name and password, as well as the answers to other security questions. Many user registration systems allow users to customize their accounts and profiles, while others give users their account information.

### 1)Login page

## 2) Registration Page

The screenshot displays a web browser window with the title 'Login and Registration Form in - x'. The address bar shows the file path 'C:/Users/ancys/OneDrive/Desktop/Data%20Analytics/frontend/login.html'. The main content area features a 'Signup Form' centered on a background image of a human torso with a glowing heart and blue-tinted skeleton. The form includes a 'Login' button and a 'Signup' button at the top. Below these are three input fields: 'Email Address', 'Password', and 'Confirm password'. A large 'Signup' button is positioned at the bottom of the form. The Windows taskbar at the bottom shows the system tray with a temperature of 27°C, a cloudy weather icon, and the date and time '17:37 13-11-2022'.

27°C Cloudy

17:37 13-11-2022
